"When I first arrived at BERJAYA UC from Vietnam, communicating in English was extremely challenging. I couldn't even understand a simple 'hello' or 'how are you?'. However, the teachers here taught me well and my communication skills improved day by day. Now, I feel more confident to speak in English. Overall, I had a good experience from the IVEP Course, thanks to all the teachers who helped me."

Foreign Languages

Currently, BERJAYA Language Centre offers two foreign languages such as French and Korean to both existing students and working adults. Our Foreign Language courses adapt a communicative approach and are designed to take learners from absolute beginners to fully conversant in the language. Our language instructors are highly dedicated to delivering the best quality courses that cater to your needs. Each course covers four main skills: reading, writing, speaking and listening.

French Language & Culture

French is the language of love, fashion and tourism. French is also remarkably important for those involved in food and beverage as well as the tourism industry.

The French language course primarily focuses on developing the four language skills. It consists of basic conversations such as self-introduction, families, daily routines, food and other basic lexical items. Grammatical structures and some aspects of French culture will also be included in this course.

Korean Language & Culture

Language is a cultural resource and speaking is a cultural practice. Therefore, it is vital that the teaching of a language includes the knowledge of the culture of the speech community. In the view of this, we have two courses at different levels for the teaching of Korean: Introduction to Korean Language and Culture and Korean Language and Culture.

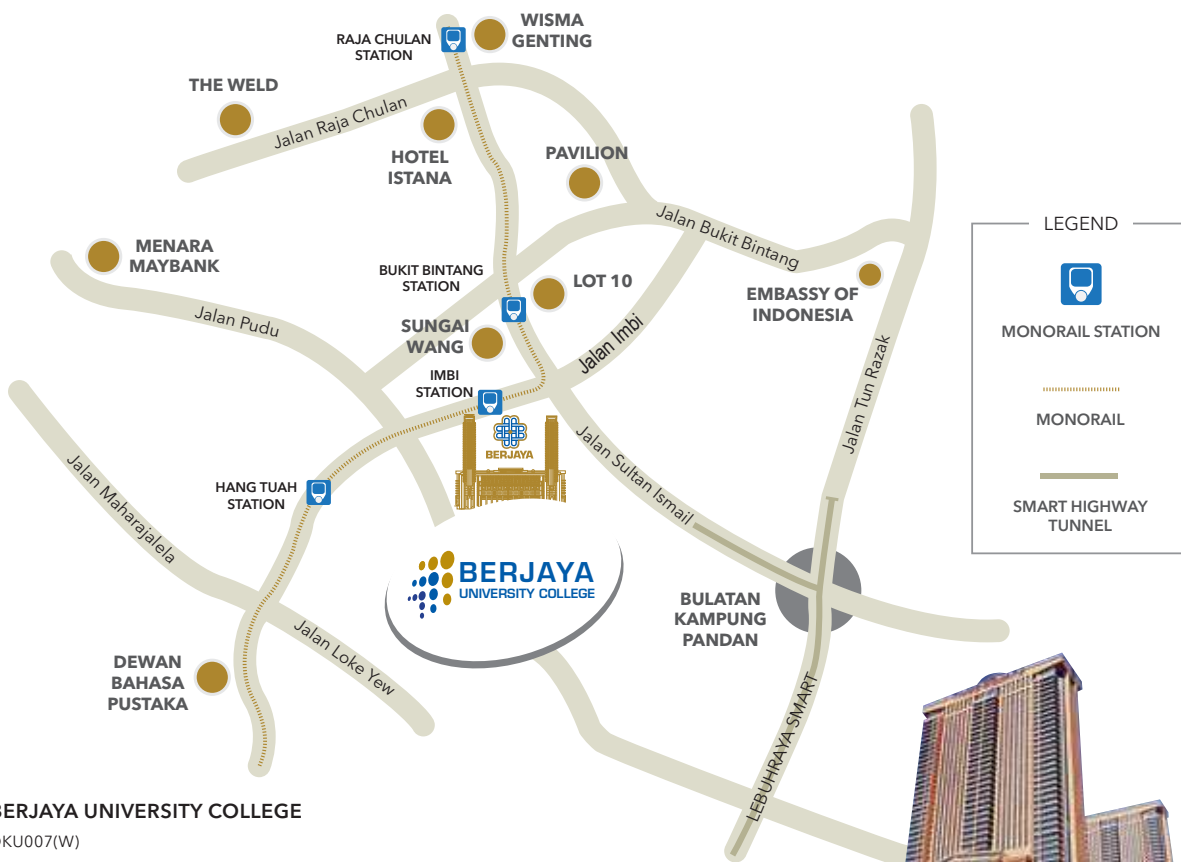

In these courses, we teach the basic elements of Korean Language in the four major skills: Listening, Speaking, Reading, Writing. The topics of communication include formal and informal expressions in different situations. Grammatical and vocabulary items are taught to support the social contexts for each learning topic. For the cultural context, cultural topics such as the history and contemporary life of Korean society are introduced and discussed.
